Welcome Letter

To the Brighton High School Class of 2025,

Since 1841, Brighton High School has stood proudly on the hilltop in Brighton as a place where generations of students have been able to learn about who they are and set goals for who they want to become. As the class of 2025, you now take your place in this remarkable legacy. You are now a part of a community of graduates that has spanned three centuries who carry the spirit and values of Brighton high school into the world making it better.

Your journey has not been easy. You entered high school after a year of remote learning and over your four years of high school we have lived in a time of rapid change, uncertainty and challenge. Through it all you have persevered through obstacles, shown compassion to one another in times of need, and been leaders in our school at those times that mattered most. Your strength, creativity and heart have defined not only your class while in high school, but also your future that we all look forward to.

We often talk about hope. Hope for a better world, for stronger communities, for a brighter tomorrow. Writing this message to you, I can say with confidence that you are that hope that our world needs. You are the thinkers, healers, artists, and changemakers our world is waiting for. You have the power to shape the future - starting now.

Bengal pride is something special. Take with you this pride, the lessons you have learned these past four years, and the unshakable belief in your potential. Never stop reaching for what's ahead. Lead with kindness. Act with courage. And know that you carry with you the legacy of a school that believes in you.

Congratulations to the Class of 2025
- Andrew Bott

Welcome Letter

Dear Class of 2025,

As you gather to celebrate this remarkable milestone, we want to express our heartfelt gratitude for the vibrant energy, unwavering enthusiasm, and unbreakable spirit that you have infused into Brighton High School and the Accelerated Diploma Program (ADP). Your unique presence has not only enriched our halls but has woven a colorful tapestry of memories that will be cherished long after your departure. Your impact on our community is profound, and while you will be missed dearly, your legacy will remain in our hearts.

We are excited to see you take this significant leap into the future, empowered by the knowledge, skills, and resilience you've developed during your time here. Your dedication and perseverance have prepared you to face the challenges ahead. The world beyond high school is a vast expanse of possibilities—though the journey may be challenging, we are confident you will meet each new opportunity with brilliance. As you embark on this thrilling new chapter, hold tightly to the sense of accomplishment and pride that accompanies this achievement. Let the supportive voices of your devoted teachers, understanding counselors, and loving family and friends illuminate your path, continually reminding you of your limitless potential. They will be your unwavering support as your journey unfolds.

We'd like to leave you with this inspiring quote from the legendary Shaquille O'Neal: "Excellence is not a singular act but a habit. You are what you do repeatedly." Embrace this mindset wholeheartedly as you pursue your dreams with confidence and determination. Congratulations on your graduation! We extend our warmest wishes for your future endeavors and eagerly await the remarkable achievements that lie ahead.

With boundless love and admiration,
Dr. DeBarros

Congratulations Seniors!

We are extremely proud of your accomplishments these past 4 years. You were the first freshman class fully out of the covid year and we couldn't be more proud of how you handled all the obstacles that were thrown your way. We look forward to hearing about all of your great accomplishments and your energy will definitely be missed throughout the building.

Good luck and hope you come back to visit us when you make it big!

Mr. De La Rosa

To the Class of 2025,

As your Assistant Principal, I couldn't be more proud of the strength, creativity, and heart you've shown every step of the way. You've faced challenges with resilience and turned obstacles into opportunities. Your voices matter, your dreams are valid, and your futures are bright. Never forget where you come from—it's your foundation, not your limit. Whether you're headed to college, a career, or discovering your path, know that greatness lives within you. Keep pushing, keep growing, and keep shining. The world needs what only you can give.

With pride and belief in your future,
Sarah Reed

THANK YOU!

Dear limom & coach molly,
As I reflect on my senior year, I can't help but feel grateful for all the support and guidance you've all given me. Your encouragement has made a huge difference in my time spent at brighton high whether it was educational or sports wise. Thank you all for helping me finish when i was just about to quit. Te quiero mucho.
- M. Silva

Dear Ms. Limon, I don't know if you're aware of how integral you were to my survival in my last two years of high school. Not only did you pull me out of the 10th grade academic pit that was dug around me, but I can directly connect my ability to function more or less like a normal human being right to you. You pushing me to do more and be more in the eyes of the other teachers and kids at this school brought back the social skills I lost during my year inside. This school was a challenge, but it and you have made be a better person, and I can't thank you enough.
- G. Arrendol

Dr. de Barros,
Though I've only had the pleasure of knowing you for a few months compared to others who have known you for years, I've grown very fond of you. You've helped me in a way no one else ever has. For a long time, I had lost faith and hope in myself when it came to school. But the day you reached out to my mom and brother, something changed, it felt like I believed in myself again for the first time in years.
Your support has been more than just academic, it's felt like a motherly kind of love, and that's something I deeply appreciate. Thank you for your dedication, your care, and the heart you pour into ADP. Your belief in me helped me start believing in myself again.

"I ain't a kid no more We'll never be those kids again" by Frank Ocean.

- M. Lopez Mejia

I know it's weird to write a letter to my future self but I'm sure you'll do great things in life. I hope by now you have found the peace, joy, and purpose you always longed for. I hope you've continued to be the same silly guy that always has a smile on your face.

I know the road hasn't been easy. I know there were moments when giving up felt easier than holding on. But I also know how deeply you cared, how hard you tried, and how much you dreamed. Please, never forget the fire that once burned in your heart, the reasons you started, and the people who believed in you when you struggled to believe in yourself. I am sure your family is proud of you and are so happy with your achievements. Never forget the hands that helped you to come where you are. You'll always have your way home. Mamãe, Manu e Papai, sempre torceram por você, e tenho certeza que eles tem muito orgulho de você.

Wherever you are now, I hope you are proud — not just of your accomplishments, but of your courage, your kindness, and your resilience.
You made it.
You wrote this to yourself in 2025. Don't screw it up. lol

- M. Breder

I see myself as a nurse, continuing to grow in my career and making a positive impact on others. I want to remember all the advice I've received from the people who care about me, hard work and support I've received, as well as the lessons learned along the way. Stay patient, keep working hard, and remember why you started. Take care of yourself. My biggest dream is to earn a Doctor of Nursing Practice (DNP) with a focus on public health. I want to become a leader in healthcare, working to improve healthcare systems.

A moi-meme
Le 14 avril 2025

Qu'avons nous accomplis sommes nous heureuse c quoi la suite me deteste tu ou je te manque, Quel sont les plus grands changements et c'est comment la vie apres l'ecole classique? Pour le moment je suis confuse su ce que je veux faire j'essaye de profiter de chaque moment passe avec ceux que j'aime et m'offrir un parfait dix-huitiemes anniversaire. Une chose est sure si tu l'oublies c'est que tu l'as perdu et c'est la chose dont j'ai le plus peur pour l'avenir. Ne perds jamais ni espoir, ni motivation. Sinon tout ce que nous et notre ne famille auras endure jusqu'a present n'aura servi a rien. N'oublie pas de t'aimer chaque jour, qu'il y aura toujours quelqu'un sur cette terre pour qui tu continueras de compter, ne pas perdre de temps a te faire des ennemis, prendre soin de toi, de te faire plaisir et rendre heureuse qu'importe ce que les autres pensent.

- N. Vil

In ten years from now you will be disappointed about the things you didn't do than the ones you did do. So throw off the bowlines, sail away from the safe harbor. Catch the trade winds in your sails. Explore, dream, discover.

- E. Kurbanov

Never give up, no matter what happens, KEEP GOING.

- G, Santos Carrasco

I want to be a nurse. Have a beautiful life.

- D. Gercelin

In 5 years I see myself a the medical field and a mother.

-F. Alrowhani

Assuming Shane hasn't killed you yet, you've finished at least one book by now, right? So, you better be working on that TV show by now, or so help me God. That's a threat.

- G. Arrendol

Dear Jai Reona,

Wherever you are in 5-10 years from now, I am super duper proud of you! You have been through the most and have been challenged by people you thought would have been here by now.. with everything you went through, you have accelerated and made success from it all. We are one of the strongest women I know. I know you are successful right now, and you are still humbled for sure, because we know how it feels like to have everything taken from you within a couple of seconds! Keep striving to be great.. Keep striving to be the best of the best, Keep embracing your natural beauty with that beautiful smile of yours, and no matter what KEEP GOD FIRST! I can't wait to see you, I love you so much. - 17.
